

CRUISE SHIP LOCATIONS 19 DECEMBER 2022

Compiled by Mike Pryce, Wellington NZ

(Information believed correct at this date. Compiled from various sources and internet AIS, especially www.cruisemapper.com. Excludes ferries and cruise ferries.

Generally, a worldwide return to cruising has taken place. The seasonal changes from cruising in the winter northern hemisphere to the summer southern hemisphere are almost complete. The initial “short” cruise itineraries have gradually been extended in length and duration as confidence grows. This has been aided by the gradual resumption of airline services, which has always been important for getting passengers to and from their cruise ships.

Only a few cruise ships are now laid up.

You can follow individual cruise-ships of interest on: www.cruisemapper.com.
