

## CRUISE SHIP LOCATIONS 8 OCTOBER 2022

Compiled by Mike Pryce, Wellington NZ

(Information believed correct at this date. Compiled from various sources and internet AIS, especially [www.cruisemapper.com](http://www.cruisemapper.com). Excludes ferries and cruise ferries.

Generally, a worldwide return to cruising has taken place. With the end of the northern summer season, many ships are heading south for warmer weather. The initial "short" cruise itineraries have gradually been extended in length and duration as confidence grows. This has been greatly assisted by the gradual resumption of airline services, which has always been important for getting passengers to and from their cruise ships.

Only a few cruise ships are now laid up.

(With these weekly reports, I am often amazed at the long distances some cruise ships manage to travel in a few weeks!)

You can follow individual cruise-ships of interest on: [www.cruisemapper.com](http://www.cruisemapper.com).
